Hi-Link Computer Corp. Achieves Advanced Unified Communications Specialization from Cisco Systems

(Stamford, CT – 1/9/08) – Hi-Link Computer Corp. announced today that it has achieved the small and Advanced Unified Communications designation from Cisco Systems®. By earning the Cisco® Advanced Unified Communications designation, Hi-Link Computer Corp. demonstrates to customers that it understands and supports VOIP solutions. The Advanced Unified Communications specialization provides Hi-Link Computer Corp. with a tailored set of resources, training offerings, and sales and marketing tools to enhance the company's expertise in selling, implementing and supporting Cisco Advanced Unified Communications solutions.

"I would like to recognize Hi-Link Computer for achieving the Advanced Unified Communications Specialization. This is one of Cisco's more rigorous specializations, and they (Hi-Link) look forward to engaging with Cisco to drive Unified Communications in the Region." said Joe Colangelo Channel Account Manager for Cisco Systems. In order to qualify for the Cisco Advanced Unified Communications designation, Hi-Link Computer Corp. had to meet specific program requirements in the areas of training, employee certification, and sales volume.

The program offers Advanced Unified Communications partners a tailored set of sales and technical resources, programs, training offerings and tools to help promote their success and address the needs in the market. As a Cisco Advanced Unified Communications partner, Hi-Link Computer Corp. will enjoy several program benefits such as being highlighted on the Cisco Partner Locator, making them easily identifiable for potential customers and differentiating themselves from other resellers.

About Hi-Link Computer Corp.

Hi-Link Computer Corp. is an Information Technology solutions provider that specializes in helping its clients build a network infrastructure to make their businesses more efficient. Hi-Link has been servicing the Tri-State area with its unique customer-focused solutions since 1990.

Hi-Link provides three primary solutions: Network Security, Wireless Networking, and IP Communications. Within each one of these areas of expertise Hi-Link offers numerous focal points: Remote access (including VPN and SSL), two-factor authentication, anti-virus, anti-SPAM, IDS/IPS, endpoint security, backup/storage solutions, content filtering, security assessments, wireless site surveys, IP phone design, and complete installations.
