For Immediate Release

Cisco Systems and a Local Network Solutions Company are Bringing the Cisco Network on Wheels Mobile Demonstration Van to Stamford, CT

Stamford, CT, April 28, 2005 – As part of an aggressive marketing plan, Hi-Link Computer Corporation in conjunction with Cisco Systems, is conducting a mobile showcase entitled by Cisco as the Network on Wheels (NOW) Van. Cisco has partnered with Hi-Link Computer Corp. to bring this network demonstration Van to Stamford, CT on May 13th, 2005 from 9:30 am – 1:00 pm. The 25-foot mobile demonstration is equipped with the latest networking technologies featuring hands on demo's illustrating technology solutions in four key areas: IP communications, network security, network foundation solutions, and wireless solutions. IP Communication Solutions lower cost and converge video and voice with a data network. Security solutions by Cisco, safeguard a company's network and data. Network foundation solutions enable new business applications, which enhance employee productivity and reduce overall costs. Wireless solutions allow a company to expand their infrastructure, reduce expenses, and increase productivity while employees are on the road or at home. Once on-board the Cisco Network on Wheels visitors will experience interactive demonstrations of technology solutions designed to enhance a company's

competitive edge, maximize productivity, reduce costs, and ultimately drive growth.

The Network on Wheels mobile Showcase Van will be making a rare Stamford appearance on May 13th 2005 at The Stamford Marriott, 2 Stamford Forum, Stamford, CT 06901 from 9:30 am – 1:00 pm. People may register for this free informative mobile showcase at HYPERLINK "http://www.cisco.com/go/semreg/fmnoweasthilink/stamford/pdf" www.cisco.com/go/semreg/fmnoweasthilink/stamford/pdf

Company Overview

Hi-Link Computer Corp. is an Information Technology solutions provider that specializes in helping its clients build a network infrastructure to make their businesses more efficient. Hi-Link has been servicing the Tri-State area with its unique customer-focused solutions since 1990.

Hi-Link provides three primary solutions: Network Security, Wireless Networking, and IP Communications. Within each one of these areas of expertise Hi-Link offers numerous focal points: Remote access (including VPN and SSL), two-factor authentication, anti-virus, anti-SPAM, IDS/IPS, endpoint security, backup/storage solutions, content filtering, security assessments, wireless site surveys, IP phone design, and complete installations.

Hi-Link is backed by industry certifications and partnerships to achieve all of these solutions. A few of its more prestigious certifications from Cisco include: Security, Routing and Switching, Wireless, and IP Communications. Hi-Link also holds numerous certifications from: Microsoft, Hewlett Packard, Citrix, and Veritas; as well as maintaining all of the necessary qualifications that are

required to be partners with companies such as: Symantec, RSA, APC, and Barracuda.
